Hair Regrowth Treatment

Procell Microchanneling for Hair & Scalp

A minimally invasive treatment with fine needles creating tiny, controlled micro-channels that stimulate and revitalize hair follicles and the scalp. Designed to stimulate stem cells in the scalp and support healthier hair growth. Works by triggering healing response and delivering the right topical products.

How it helps the Scalp & Hair

- Encourages increased blood flow to the hair follicles
- Thickens the epidermis
- Improves barrier function
- Helps "wake up" or support weakened or dormant follicles
- Enhances absorption of topical treatments and serums that can correct hormonal imbalance
- Supports overall scalp health and regeneration

Who It Is For

- Thinning Hair or early stage hair loss
- Weak or slow-growing hair
- Excessive shedding
- Suitable for both men and women

What to Expect During Treatment

The scalp is cleansed, prepped and numbed before starting.
A specialized device is gently passed over targeted areas creating micro-channels.
We apply a hair growth serum into those micro-channels.
Most clients feel mild discomfort, but it is generally well tolerated. Sessions are usually 30 minutes but expect your first session to be an hour, leaving time for consultation and instructions.

Pricing & Packages

Package #1

2 session in 1 month

Receive:

Hair regrowth serum

\$2400
\$2160

We cannot guarantee specific results; however, some clients have experienced hair regrowth after as few as two sessions. All sales are final, but any unused funds may be applied as a salon credit. Results vary by individual and typically develop gradually over time. Our focus is on long-term scalp health and sustainable results.

*
DERMA STAMP SYSTEM
HOW TO USE

- 1 START WITH A CLEAN UP**
WASH YOUR HAIR AND SCALP THOROUGHLY TO REMOVE ANY DIRT OR BUILDUP. PAT DRY BEFORE USE.
- 2 DISINFECT YOUR DERMA STAMP**
BEFORE AND AFTER EACH USE, SANITIZE THE STAMP WITH RUBBING ALCOHOL TO MAINTAIN HYGIENE.
- 3 STAMP GENTLY & EVENLY**
USING LIGHT PRESSURE, PUSH THE DERMA STAMP ACROSS YOUR SCALP.
- 4 FOLLOW UP WITH SCALP TREATMENT**
APPLY A NOURISHING SERUM, OIL, OR TOPICAL TREATMENT TO ENHANCE ABSORPTION AND MAXIMIZE RESULTS.
- 5 USE CONSISTENTLY**
FOR BEST RESULTS, USE 2-3 TIMES PER WEEK. AVOID USING ON IRRITATED OR BROKEN SKIN, AND ALWAYS STORE YOUR STAMP IN A CLEAN, DRY PLACE.

0.5MM NEEDLES

Rebuild & Restore Facial

Collagen+Elastin Chemical Peel Exfoliation + LED Red Light Therapy

\$110

Ideal for clients experiencing:

**fine lines
loss of firmness
dehydration
uneven texture**

This facial focuses on rebuilding the skin's structural integrity

working to refine texture, brighten tone, and stimulate cellular renewal, soften wrinkles, improve elasticity, address dullness and discoloration, restoring and deeply nourishing the skin, delivering intense hydration and promoting firmness.

LED red light therapy enhances these benefits by supporting collagen production, accelerating healing, and improving overall radiance—making it especially beneficial for clients seeking long-term anti-aging results.

The treatment concludes with targeted finishing products to hydrate, protect, and lock in results, leaving the skin visibly smoother, plumper, and more resilient.
